

PANEL BOOK TEMPLATE

1. Cut out the template on the solid lines of the outer rectangle.
2. Center the template over one panel of the accordion book.
3. Using an awl or a pin, poke a hole in the template, through to the panel, at each of the eight points marked by arrows.
4. Repeat steps 2 & 3 on each panel.
5. Use the holes as your cutting guide. Make cuts, using an Exacto knife, only where there are solid lines indicated on the template.
6. Where you see dotted lines on the template, score the panel using a bone folder.
